Hair Restorative will do all this—see circular and the following:

Ann Arron, Nov. 5, 1886.

Drak Sir: I have heard much said of the wonderful effects of your Hair Restorative, but, having been so often cheated by quackery and quack nestrama, hair dyes, &c., I was disposed to place your Restorative in the same category with the thousand and one loudly-trumpted quack remedies, until I met you in Lawrence county some months since, when you gave me such assurance as induced the trial of your Restorative in my family—drest, by my good wife, whose hair had become very thin and entirely white, and before exhausting one of your large bottles her hair was restored nearly to its original beautiful brown color, and had thickened and become beautiful and glossy upon, and entirely over the head, she continues to use it, not simply because of its beautifying effects upon the hair, but because of its healthful influence upon the head and mind. Others of my family and friends are using your Restorative, with the happiest effects, therefore, my skepticism and doubts in reference to its character and value are entirely removed; and I can, and do most cordially and confidentially, recommend its use by all who would have their hair restored from white or gray (by reason of sickness or age) to original color and beauty, and by all young persons who would have their hair restored from white or gray (by reason of sickness or age) to original color and beauty, and by all young persons who would have their hair that beautiful and glossy.

Very truly and gratefully yours,

FOLOMON MANN.

FRIEND Woon: It was a long time after I saw you at Blissfield before I got the bottle of Restorative for which you gave me an order upon your agent in Detroit, and when I got it we concluded to try it on Mrs. Mann's hair, as the surcest test of its power. It fins done all that you assured me it would do; and others of my family and friends, having witnessed its effects, are now using and recommending its use to others as entitled to the highest consideration you claim for it.

Again, very respectfully and truly, yours,
SOLOMON MANN.

CARLYES, (BL.) June 28, 1852. I have used Prof. O. J. Wood's Hair Restorative, and have admired is wonderful effects. My hair was becoming as I thought, premaurely gray, but by the use of his Restorative it has resumed its original color, and, I have no doubt, permanently so.

CHARLES'S LONDON CORDIAL GIN.—THE CHARLES'S LONDON CORDIAL GIN.—THE
ORIGINAL AND ONLY LONDON GIN IMPORTED.—This Gio,
distilled in London from sound barley, under the surveillance of the
British excles have, is delicately flavored with a tincture of the British
considering the control of the most valuable restoratives of the British
conjunctory, and sound of the most valuable restoratives of the vegetable kingdom, rendering it, in the opinion of the most eminent median men, the purent and safest stimulant or disrettle drink in use.

It is a delicious temic, of a soft and delicate flavor, differing entirely
from any other Gin, and devoid of that barsh, acrid testes which renders the article known as Holland Gin, or Schnappe, so objectionable.

Though not intended as a medicine, it is recommended by physicians
generally in cases of Dyspopsia, Gout, Rheumalism, Dropsy, Gravel,
Cuic, Cholera, Fever and Ague, Stricture, Breasses of the Urinary Grguns, the Kitcheys, and the Bowels, Norvous Deblity, &c., whilst the
weaker sex will find by its adoption a sure reliof from these distressing annovances which frequently attend their delicate organization.

It: valentine Mort, of New York, the highest medical authority,
pronounces CHABLES'S LONDON CORDIAL GIN "not only superior
to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to settlers in the southern and western

Jan 17-dtf Jefferson City Coal Mining and Oil Manufac turing Company.

THE above company was chartered December 30, 1857. The ead bank belonging to and from which this company will operate is situated in Callaway county, in the State of Missori, lying about four sulles from the Missouri river, on the opposite bank from Jefforson city, and one hundred and twenty-fee mines from Schools by railroad. It is a gentle inclined plane from the tree in the cool bank, no valleys or hills inter enting, giving the company exery advantage possible over any other bank that is yet known in the this distates. So far as relates to navigation, the case with which the coal can be delivered to the Missouri river, the great demand for the coal by the steamboats, the central position of the bank for supplying JUST RECEIVED, the following works of J. V. coal can be delivered to the Missouri river, the great demand for be coal by the steambouts, the central position of the bank for supplied the morthern, western, and northwestern countries, together with the great demand for coal in St. Louis, and all the river clies between the coal to New Orleans, inclusive, no company can compete all as We have yet another inestimable prospect of profit; the coal of the banks is said to be inferior to more in the known world for producing large quantities and a fine quality of oil. No. siste or impurities are contained in it. But one great miss of the cannel coal, depended large quantities and a fine quality of oil. No. siste or impurities are despited in it. In addition to the Missouri river for navigation, which is equal to any mavigable waters in the world, we have railroads built, help built, and projected in almost every direction from Jeffense city, opening for the distribution of this coal the whole North, West, and northwestern country, where finel, from its accurity, has beene in limited in importance. The following is an estimate of the seemen the limited in the supply orders that will be made from all paris of the western country, together with one million of bushels for the mental country, together with one million of bushels for the mental country, together with one million of bushels for the mental country to the country to the supplied to the supply orders that will be made from all paris of the vectors country, together with one million of bushels for the mental country to the country to the supplied to the supply of the coal on the back of the Bisserii rive, the amount of three millions of bushels. "This is an extraordinary book. . That the author wa "This is an extraordinary book." That the author we animated by a deeper emotion than that of the production of a cleve and somewhat surprising novel which should make a great sensation we are perfectly satisfied.

A graceful fancy, as even a high imaginative power, are unsparingly exercised through out."—Dauglass Jerrold's Weekly News. "Besides the admirable sketches of society, the story of 'Alban Atherton' has a great purpose."—London Neb Monthly.

"The young lady characters in 'Alban' are just such girls as we have all known and some of us perhaps have loved."—Whig Review. "The Forest' is one of the finest pictures over painted of an out-door life in the wild regions of this State; and we speak with a virid memory of all that Cooper and Hoffman have dence. Its delineations of individual character are hardly less admirable."

[N. V. Courier and Engager.

For mining, one cent per bighet
For delivering to bank and shipping 3,900,000 bushels, for cents per bushel.
For manufacturing oil, ten cents per gallon.
For incidental expenses "Woods, lakes, and water-falls, the forest clearing, and the mountain wilderness attract Mr. Huntington with the freshness and variety of a new inspiration."—N. F. Literary World. .150,000 .100,000 .10,000 "The descriptive powers evinced in 'The Forest' are extraordinary."—N. F. Econgelist. Total expense ... The yield and profit are as follows: The coal will sell rearriver bank at fitteen cents per bushel, and the oil at one twenty-five cents per gallon:
The yield of 3,000,000 bushels coal at 15 cents.
The yield of the 1,000,000 bushels of coal in oil, at fifty per cent. less than its capacity, is 1,000,000 guilons, at \$1.26. "The finest portions of the work are the descriptions of hunting and of the grand scenery of the North. Here the author's thought flows in native chambels, and the beautiful pictures of the wild woods and lakes, and the myrind phases of nature in forest, stream, and mountain, are painted with masterly and poetic skill."

[Professiont Churchman] 9450,00 26. 1, 250,00

"The author's power of description is traly extraordinary, the pen-paintings are as exposite in their kind as the colored lendscapes of the masters. You see that the man has drank in art from his earliest life, and has the artist's double genies, appreciation, and reproduction. Whatever may be the subject, it is placed before us with a vivid, a liv-ing beauty, equalide by no American writer we know."

[Douald MacLeod in the N. F. Freeman's Journal.

"That Mr. Huntington has such a faculty and gifts may be seen by any one who will read ten pages of 'The Forest.' The sports, the adventures of an Indian hunting-ground, are put before the reader's mind with the sharp outlines, the humor, and the breadth of real life. The incidents of the journey through the wilderness, the moral interest growing up like flowers out of the commonest material facts, are charmingly described."—Lendon Athenaum.

"We venture to say that no reader, great or small, who takes up this book ('The Pretty Plate') will lay it down unfinished. It tells the story of a story told to half a dozen children in a tire-ill parior. Their comments point in a few words the character of those who make them with such graphic power that we see the listeners before us. In this respect the book is quite remarkable. We have not met with one in which juvenile character was so discriminated and portrayed."
